THE FAKE HOLY BIBLE

It wasn’t the rain the weird noise which woke up Noah that night. When he saw the holes all over the half-sunk Ark he felt like a fool. His wife, noticeably angry, approached him; narrowed her eyes and said. “I advise you not to embark the couple of woodpeckers!”

BIOGRAPHY

John was in his fifties, although one could sum up his life in hardly fifty words. Born in Hawaii, he spent the existence in the fifty acres of his farm. After a ruinous harvest, Johnny decided to invest his last fifty bucks in lottery. How many million did he win?

THE FOX

At dawn, a clever fox, looked at her shadow and she said to herself: -Today, I’ll have a camel for lunch.
So she spent the whole morning looking for a camel. But at midday, she had a look at her shadow again and she said: Well... a mouse will do.

Blue Blood Bleeds. The happy nightmare of a pacifist psychopath.

Politicians, weapon designers, and the managers of the military industry were gathered in that desert to test the latest intelligent ballistic missile. The rocket didn’t fly. However, it did explode. Nobody survived.
It was a complete failure, or perhaps it was not.... In the end, they wanted an intelligent weapon.

THE SECRET

He is laying but not in bed, he wants to move.
He cannot, because he is underground…
He understands he has been buried alive.
He thinks about his mother as he pointlessly tries to crack the coffin…
He stays still, because only like that it will be a secret death …

MATCHLESS CLOSE RELATIVE!!!!!!!

Two husbands are talking in a pub.
- Do you know what is the different between TERRIBLE and HORRIFIC?
- No idea!
- TERRIBLE is when a wave catches your mother-in-law and sweeps her as far as the sea floor. And HORRIFIC is when another wave brings her back with you again.
- Heavens!!

FOR THE SPANISH LYNX CONSERVATION

The most threatened feline in the planet. The rabbit population decrease or the accidents are their extinction reasons but there is still some hope. The reproductions increase and the discovery of new populations give rise to the expectation. Fight for the conservation of our endemic species.

Don´t let them disappear!
TIME GOES BY

One more year here we are, struggling with words.
Our desires and wills shall be awarded, victory or defeat.
The sands of time are running fast one more time.
As the hour arrives, no quarter for us will be left.
And I got again the time ticking in my head.

I'M LEAVING

I’m sticking in Miranda since 2008. I’ve got to do evil and un hinge the Spanish. I started changing the government, increasing unemployment and finally driving out the Real Madrid in Europe.
I don’t know what else to do.
I must go now. So, don’t worry about the future anymore.

PABLO

Pablo is going to give up smoking.
I think it is nearly impossible.
Although he gave up smoking five years ago, I am not sure if he will pick it up again.
Most of us make the same mistakes once and again even though we know how dangerous they are.
HOW THE EARTH WORKS

Continents move. Glacial cycles come and go. Mountains spring up and erode away. We live on a planet that is constantly in motion- but we see it in extreme slow motion. Not only are humans at the mercy of our planet’s natural forces, but also we’ve become agents of change.

THE CAT AND THE RAIN

I can’t stand these rainy days! People invade the streets with their fantastic umbrellas thinking they are not going to get soaked. When I leave home, I become hysterical, my hair bristles, I meow as if I were mad, and go back as if a vulgar dog were chasing me.

THE PICTURE

The picture was alone in the enormous room. The newspaper talked about it that weekend. When my turn arrived I looked at it with great yearning. The child who was near me said in a loud voice: “She is the woman in the picture”. Then, I smiled at my great-great-grandmother.

**DREAM JOB**

I saw the advertisement: Working outdoors with pets. Good salary. Flexible timetable. It was my dream job!. Uniform required?. Quite odd but it doesn’t matter. I got the job immediately. Too much luck. Dressed in a foam dungaree, I understood everything when a dog jumped at me and bit me.

**MY LITTLE SISTER’S ANSWERS**

“Some plants, like mimosas, have got one sense. Which one?” asked my father to my sister.

“Mmm...”

“The sense of...”

“Humour?” she answered with quiet indecision.

“Pff...You must study harder! Okay, let’s continue. Which are the five kingdoms of alive beings?

“Mmm”...

“Animals, plants...and?”

“Et cetera, et cetera...”

**WHO AM I?**

The old man was thinking about his life. He was sitting down watching the sunset:

“If I had studied in the best university. If I had married Mary. If I had bought the other big car. If I had done all those things, I would not be this who I am".
